This is important that agricultural statistics should be obtained on an annual basis, but a complete annual survey or so-called census places a heavy burden on the respondents, while the processing and releasing of the statistics are extremely time-consuming. It has accordingly been decided that a complete agricultural census will be taken every fifth year (the latest census was taken in 1980), while in the intervening years only 10% of the farmers (since 1985) will be required to complete an abbreviated questionnaire.

This report contains the complete results for the national development regions A, B and D of the census on agriculture undertaken in respect of 1988. Reports containing the complete results of the remaining national development regions, will be published in due course.

Because of the poor co-operation of respondents in respect of the 1988 Agricultural Census, the collection of returns could not be concluded on the date planned. In fact a sufficient number of returns were not received in order to provide reliable results on magisterial district level in all cases. Of the net number of 52 428 respondents involved in the census 7 267 did not respond and provision had to be made statistically for these cases. These non-respondents had a substantial effect in certain areas.

This report was printed by means of a computer. Unfortunately, provision could thus not be made for all district marks in the Afrikaans text.

A 1/4 of reports which have been published in respect of agricultural census/surveys as from 1981, appears at the back of the report.

VERDUIDELIKende Omerkings

1. OMWANG VAN DIE LANDBOUSENSUS

1.1 Vir doeleindes van die landbouensusus is boerdery beskou as:
- die kweek van landbougewasse, vrugte, drieuwe, neutie, saad, bale, grens- of bloeme;
- kweserge, uitgesonder hy wat hoofsaaklik op aakrope en herverkope toegespets is;
- die bedryf van thee-, koffie-, suiker-, haut-, of ander plantages;
- die teel van vee, wild, pluimvee, peldisiere en ander diere of vanwatvervisie en
- die produksie van melk, room, woi, pels, eiers of haar

vir kommersiële doeleindes.

1.2 Gegevens van landbouhoese in stedelike gebiede, dit is gebiede met een of ander vorm van plaaslike beheer, is slegs in daardie gevalle waar die produkte vir verkoop bedoel is, soos kwerekwe, gerasietuur, blomslae en melkerye ingesluit in hierdie verslag.

1.3 Die gegevens het betrekking op boere in die Republiek van Suid-Afrika wat hulle of gehuurde plassie bewerk of en Sold bewerk het. Gegevens teen onopgrys van boere en boerderyeenhede in die seë selfregenerende gebiede is uitgesluit.

2. OMSKRYWINGS EN BEGRIPPE WAT GESTRIK WORD

2.1 Senesseurs - Besonderhede met betrekking tot die oppervlakte van die boerderyeenhede, die getal verkiesse, saadhuise en gesinliede, die getal besoeklike plaaswerkers en die getal diere is gevra soos op 31 Augustus 1986, terwil boerderyskild betrekking het op 30 Junie 1988. Merkwaardige verkoop, bruto boerdery-inkomste en -uitgawes, akkerbou- en tuinbouprodukte geproduceer, diere en diereprodukte, boer AUGUSSTEIG en boer AUGUSSTEIG AUGUSSTEIG gehuurde plassie en ontwikkelingswerk onderneem, het betrekking op die finansiële jaar van die boerderysensus wat op enige datum tussen 1 September 1987 en 31 Augustus 1988 gedefinieer het, terwil die markwaarde van roeren boerderysensus gevra is soos aan die einde van die finansiële jaar van die boerderysensus.

2.2 Boerderysensus - 'n Boerderysensus bestaan uit een of meer afsonderlike plassie, hoeweers of stukke grond ongevaar of hulle aangereken is of nie, solank hulle in dieselfde landboudistrik geleë is en as 'n eenheid bedryf word. Plase of stukke grond wat in verskillende landboudistriekte geleë is, is as afsonderlike boerderysensus beskou. Die getal boerderysensus vertoonwoordig dus nie die getal boere nie, aangesien 'n besig boerderysensus van meer as een boer bedryf kan word en 'n bepaalde boer meer as een boerderysensus kan bedryf.

2.3 Boer - Die boer is die persoon, onderneming of instelling wat die boerdery vir eie genoel bedryf, ongevaar of hulle aangereken is of nie, solank hulle in dieselfde landboudistrik geleë is en as 'n eenheid bedryf word. Lege en geboue of op die grense van geografiese gebiede.

3. VERSKYLEBAAKHEID MET VORIGE SENSEUS/OPNAMES

3.1 Wanneer besonderhede van hierdie sensus met dié van die vorige sensus/opnames vergelyk word, moet vryal re gelyke in geheue of gedagte geheue word.

- Verandering in geheue of gedagte.

- Wisselende klimaatstoestande.

- Veranderingen in boerderysensus/boerderysensus.

3.2 In gevalle van die slag, bewaring en verskynsels van boere en die boer as 'n integrale deel van die boerderysensus onderneem word, is hierdie aktiwiteite, onderlandbou geëxpreseer, soortgelyk is die droop/vermindering van teenklare, in die besluit van die bestuurs van die ting op die integrale boerderysensus onderneem word, onderlandbou geëxpreseer. Voor 1988 is berekenings van die omvang van hierdie "fabrikkedjure"-aktiwiteite gemaak en uitgesluit uit die landboudensensus/ -opnames.

3.3 In gevalle van voorbeelde, bv. boere wat hul normale boerdery-aktiwiteite, ook met vee geskik, in hierdie inkomstige ingesluit. Voor 1988 is spesialisatiedagbokke uitgesluit uit die landboudensensus/ -opnames.

EXPLANATORY NOTES

1. SCOPE OF THE AGRICULTURAL CENSUS

1.1 For purposes of the agricultural census farming means -
- the cultivation of field crops, fruit, grapes, nuts, seed, bulbs, vegetables or flowers;
- nurseries, excluding those predominantly engaged in purchasing and reselling;
- the operation of tea, coffee, sugar, timber or other plantations;
- the breeding of livestock, game, poultry, furred animals and other animals or freshwater fish; and
- the production of milk, cream, wool, fur, eggs or honey.

for commercial purposes.

1.2 Data in respect of agricultural holdings in urban areas, i.e. areas having some form of local authority, are included in this report only in those cases where the products were intended for sale, such as nurseries, vegetable gardens, flower farms and dairy farms.

1.3 The data refer to farmers in the Republic of South Africa who worked their own or rented farms or farmed land on shares. Data in respect of farmers and farming units in the self-governing territories are excluded.

2. DEFINITIONS AND CONCEPTS USED

2.1 Census year - Details relating to the area of the farming unit, the number of working proprietors/tenants and members of the family, the number of paid employees/farm employees and the number of animals were called for as at 31 August 1988, while farming debt refers to 30 June 1988. Employees' remuneration, gross farming income and expenditure, field crop and horticultural products produced, animal and animal products sold, equipment purchased and the amount spent on the erection of buildings and development work undertaken, refer to the financial year of the farming unit which ended on any date between 1 September 1987 and 31 August 1988, while the market value of movable farming assets were called for as at the end of the financial year of the farming unit.

2.2 Farming unit - A farming unit consists of one or more separate farms, holdings or portions of land, whether contiguous or not, provided they are situated in the same magisterial district and are operated as a single unit. Farms or portions of land situated in different magisterial districts are regarded as separate farming units. The number of farming units, therefore, do not represent the number of farmers, as a specific farming unit can be operated by more than one farmer, and one farmer can operate more than one farming unit.

2.3 Farmer - The farmer is the person, enterprise or establishment conducting farming operations for his/its own account, irrespective of the ownership of the land farmed or farmed on shares. For the purposes of the census "farmer" refers to the proprietor who farms himself, the tenant, farm manager, farm foreman or any other person in control of the farming.

3. COMPARABILITY WITH PREVIOUS CENSUSES/SURVEYS

3.1 In comparing the results of this census with those of previous censuses/surveys the following should particularly be borne in mind:
- Alterations in the boundaries of geographical areas.
- Fluctuating climatic conditions.
- Alterations in branches of farming. Rotation of crops.

3.2 In cases where the slaughtering, processing and packing of poultry are undertaken by the farmer as an integral part of poultry-farming on the same agricultural unit, these activities are classified under agriculture. The drying/processing of tea leaves, if undertaken by the farmer in conjunction with the cultivation of tea on the same agricultural unit, is similarly classified under agriculture. Before 1988 estimates of the extent of these "manufacturing" activities were made and excluded from the agricultural censuses/surveys.

3.3 In cases where stock-farmers, in addition to their normal farming activities, also speculate with livestock, this income has been included. Before 1988 speculation activities were excluded from the agricultural censuses/surveys.
4. NOTES TO TABLES

4.1 General

4.1.1 In order to ensure the confidentiality of individual respondents' data, products/items were combined in certain cases and in other cases indicated with "..." (not available).

4.2 Table 1 - Principal statistics

4.2.1 Farming units

The total number and the total area of farming units reflect fluctuations from year to year. These differences can be ascribed, inter alia, to:

- Inconsistencies in the areas reported from year to year by individual farmers.
- Annual fluctuations in the total number and the total area of the farming units enumerated as a result of, for example, fluctuations in the composition of farming units and temporarily unoccupied (inactive) farming units, which are not included in the survey.
- Continual withdrawal of land for mining, industrial, commercial and residential purposes.

4.2.2 Tables 1.1 and 1.2

4.2.2.1 "Other regular employees" include farm managers/farm foremen and other regular employees who normally do farmwork.

4.2.2.2 "New development works undertaken" include establishment costs.

4.2.2.3 "Market value of land and improvements" include land hired and land farmed on shares.

4.2.3 Tables 1.3 to 1.6

4.2.3.1 "Proprietors and tenants" include family members actively involved in the farming operation who do not receive regular salaries.

4.2.3.2 "Paid employees" include domestic workers and gardeners, other regular employees and casual and seasonal employees.

4.2.3.3 "Employees' remuneration" refer to paid employees (see 4.2.3.2).

4.2.3.4 "Wages and salaries" refer to cash wages, salaries and cash bonuses.

4.2.3.5 "Other remuneration" include payments in kind, free housing and free land utilisation.

4.2.3.6 "Gross income" and "revenue" refer to gross income earned from agricultural products.

4.2.3.7 "Capital expenditure" refer to equipment purchased, buildings erected and development work undertaken.

4.2.4 Tables 1.4 to 1.6

4.2.4.1 Subs (row descriptions) in respect of farming unit, number of employees and income size groups are omitted in cases where no returns in respect of the said size group were received.

4.2.5 Table 1.7

4.2.5.1 The following branches of farming are distinguished:

- Field crops
- Horticulture
- Animals
- Forestry
- Mixed.

4.2.5.2 A branch of farming is considered as dominant if the gross income of that branch represents the relatively largest part of the total gross farming income of the farming unit, otherwise it is considered as mixed. Dominance on the 25% level is shown in Table 1.7.1, while that on the 75% level is shown in Table 1.7.2.
Table 2 - Farmers

4.3.1 Where two or more persons conducted the farming operations as a unit, such as in partnership or as a company, only one person furnished his particulars.

4.3.2 Where two or more farming units were conducted by one person, this person furnished his particulars at all the relevant farming units.

4.3.3 Although the number of farming units does not represent the number of farmers (as mentioned in para. 2.2 above) the procedure of the survey, as stated in paragraphs 4.3.1 and 4.3.2, has the result that they do in fact correspond.

4.3.4 See also the definition of "Farmer" under Explanatory Notes, 2.3.

4.4 Table 4 - Employment

4.4.1 Regarding employment, the following are distinguished:

- Proprietors/tenants who themselves farm,
- Family members actively involved in the farming operation,
- Paid employees.

4.4.2 Proprietors/tenants who themselves farm and family members refer to individuals and partnerships only.

4.4.3 "Paid employees" - The following are distinguished:

- "Domestic and garden employees", i.e., employees who are mainly or exclusively engaged in domestic and garden work.
- "Other regular employees" such as farm managers/farm foremen and other regular employees who normally do farm work.
- "Casual and seasonal employees" such as shearsers, reapers and fruit-pickers, excluding contractors and their employees.

4.5 Table 5 - Employees' remuneration

4.5.1 "Total remuneration" includes cash wages, salaries and cash bonuses and other remuneration.

4.5.2 The following employees' remuneration are distinguished:

- Cash wages, salaries and cash bonuses,
- Other remuneration. The following other remuneration are distinguished:
  - "Payments in kind" refer to the value of rations and other remuneration, such as maize, flour, slaughter animals, meat, fish, milk, wine, bread, coffee, sugar, tobacco, clothing, shoes, transport, training and medicine provided to farm workers, including medical expenses paid on their behalf.
  - Free housing.
  - Free land utilisation.

4.6 Tables 6, 7 and 8

4.6.1 Combination of products

- Products for which no information was received, were omitted.
- Products with small relative contributions were in some cases included in the category "other" of the relevant branch of farming and in other cases simply included in the total of the relevant branch of farming.

4.6.2 Combination of areas

- Magisterial districts in respect of which no data were reported, were omitted.
- Magisterial districts with relatively small contributions were combined with statistical regions and similarly statistical regions combined with the specific development region.

4.7 Table 6 - Gross income earned from agricultural products

4.7.1 The following types of gross income earned are distinguished:

- Field crop products
- Horticultural products
- Animals and animal products
- Forestry products
- All other products.
"Animals and animal products" include gross income from livestock, poultry, game, fish and all other animals.

"All other products" include gross income from wild flowers, compost and firewood.

Table 7 - Volume and value of agricultural production

Regarding volume and value, the following are distinguished:
- Field crop products such as summer cereals, winter cereals, fodder crops, oil-seeds, legumes and other field crop products.
- Horticultural products such as vegetables, fruit, nuts, tea and coffee.

Note: The table represents a summary of various categories under the headings 'Area', 'Total', 'Seed and plant material', 'Stock and feed', 'Fertilizer', 'Packing materials', 'Veterinary care', and 'Other'. Each category is further divided into 'Permanent' and 'Semi-permanent' sub-categories with specific figures for each. The table seems to be part of a larger document possibly related to agricultural expenditure or land management.
